This book is part of a family of premium-quality Sybex books, all of which are written by outstanding authors who combine practical experience with a gift for teaching.Sybex was founded in 1976. More than 30 years later, were still committed to producing con-sistently exceptional books. With each of our titles, were working hard to set a new standard for the industry. From the paper we print on, to the authors we work with, our goal is to bring you the best books available.I hope you see all that reflected in these pages. Id be very interested to hear your comments and get your feedback on how were doing. Feel free to let me know what you think about this or any other Sybex book by sending me an email at chris.webb@wiley.com. If you think youve found a technical error in this book, please visit . Customer feedback is critical to our efforts at Sybex. Best regards,Chris WebbAssociate Publisher,Sybexmailto:chris.webb@wiley.com are many people that work to put a book together, and as an author, I dedicated an enormous amount of time to write this book, but it would have never been published with-out the dedicated, hard work of many other people. Monica Worthy Lammle was crucial to the finished product this book became, going over every word of every chapter with me to fine-tune the language and grammar. Without Monicas support in all areas of my life, Id never have finished writing this book.Next in line to thank is my new technical editor, John Swartz, who also coauthored the CCNA Data Center study guides with me. His expertise in the Cisco technical field, and his history of networking in general, is second to none. His detailed analysis of my work helped make this my best CCNA study guide ever. Thank you, John, for working hard under pressure, with tight deadlines, and for staying the course of delivering high-quality work in a short time frame.Jeff Kellum, my acquisitions editor, is instrumental to my success in the world of Cisco certification. Jeff, I look forward to our continued progress together.Christine OConnor, my production editor, and Judy Flynn, my copyeditor, were my rock and foundation for formatting an intense editing of every page in this book. This amazing team gives me the confidence to help keep me moving during the difficult and very long days, week after week. How Christine stays so organized with all my changes, as well as making sure every figure is in the right place in the book is still a mystery to me! Youre amazing, Christine! Thank you! Judy understands my writing style so well now, after doing at least a dozen books with me, that she even sometimes finds a technical error that may have slipped through as I was going through the material. Thank you Judy for doing such a great job! I truly thank you both. Troy McMillian really helped me on this book (on all books actually!) by working on the review and bonus questions, flash cards, as well as a 3rd technical edit on the last stage of editing. He did a high-quality job in a short time! Thanks, Troy! Jim Frey and Paul Sutton really helped me put together this books amazing figures, and an all-around second-look technical edit. Thank you both! Also, thanks to Dax Mickelson and Dennis Frye for performing the technical proofread of the book.Finally, a big thanks to Craig Woods at Happenstance-Type-O-Rama and to the Sybex media-development team.About the AuthorTodd Lammle is the authority on Cisco certification and internetworking and is Cisco certi-fied in most Cisco certification categories.
